The numbers given are just the minimum more is welcomed.

Greetings All:

I'm working on a schedule for First Aid, CPR, and AED training with the Fire District. Therefore, I need to get a firm number for the team and in addition any residents who may be interested in the classes.

The classes are broken into two sessions the first is the First Aid cost \$40 and the second is the CPR & AED \$40. You may sign up for one or both.

I'm waiting for a call back to see if they will do the training at our clubhouse instead of the Yucca Loma fire station. The class is usually on a Saturday and CDR will provide the lunch for those staying the whole day.

I would like to have the class the end of January or any Saturday in February. I will keep you posted when we finalize the date and time.

I've been working on job description for the new position I've created, so those of you who have expressed interest in joining the team please see me about the information.

Also, if you have joined the team, please see me about some in depth training. Thank you Nanci Edwards 760 247-7610
